

Project Demo Planning

Date	23 June 2026
Team ID	SWTID-2026-8204
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the agricultural problem of poor crop selection and its impact on farmers	3	Yarram Kusuma Reddy
2	Solution Overview	Walkthrough of OptiCrop's approach — ML-based crop recommendation via Flask web app	3	Yarram Kusuma Reddy
3	Data & Model Walkthrough	Brief overview of dataset, preprocessing, and model training/evaluation results	4	Yarram Kusuma Reddy
4	Live Feature Demonstration	Live demo: Home → About → FindYourCrop → submit inputs → view crop prediction	5	Yarram Kusuma Reddy
5	Architecture & Tech Stack Recap	Brief recap of Flask + Scikit-learn architecture and key design decisions	2	Yarram Kusuma Reddy
6	Q&A Session	Address questions from evaluators/stakeholders	3	Yarram Kusuma Reddy

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set context on farmer pain points around crop selection
2	Solution Overview	Introduce OptiCrop's ML-driven approach
3	Live Feature Demonstration	Demonstrate FindYourCrop form → prediction result end-to-end

4	Q&A Session	Open floor for evaluator questions
